

Re: Docket 04-233

For weeks now, my local Sinclair Broadcasting affiliate, KGAN-TV, has been airing commentaries by a Sinclair official in Baltimore, Md., that are inaccurate, biased, and mean. Now that same management is pre-empting scheduling just before a national election to air a one-sided, nasty commentary called "Stolen Honor."

I have quit watching KGAN news, the only thing I could do. But those airwaves they are using belong to me as well as all other citizens and we deserve to have the fairness rules enforced in political campaigns. This is a perfect example of why we do not need more concentration in broadcasting.

I believe the local KGAN people try to serve the public but they are overruled by their owners. Please help us to preserve democracy by requiring fairness and balance in commentary. Thank you.
